Art Unit: 1631

The references crossed out on form 1449 submitted January 25, 2002 are duplicate entires.

The disclosure is objected to because of the following informalities.

- (a) The amendment filed January 12, 2004 is in improper form in that it recites:
"6-8. (canceled) The nucleic acid molecule of claim 5, wherein the nucleic acid molecule comprises the nucleotide sequence of a naturally-occurring allelic nucleic acid variant." This is unclear. However it is later (page 7) made clear that claims 6-8 are cancelled. Applicants are required to submit a clean copy of the claims in any response to this Office action in order for that response to be considered to be fully responsive.

Appropriate correction is required.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 5, 9, 10, 12-14, 19-21, 39, and 50 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. This rejection is repeated for reasons already of record (e.g., Office action mailed September 11, 2003. Applicants' arguments (response filed January 12, 2004, pages 8-9 are not convincing. Applicants assert that SEQ ID NO: 13 may be used as a kidney cancer cell marker. However, there is no clear connection between expression of SEQ ID NO: 13 and any disease or condition in the part of the application alluded to by applicants (*i.e.*, pages 237-255).

Claims 5, 9, 10, 12-14, 19-21, 29, and 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The discussion in the previous rejection is incorporated here.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1631

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
